ABOUT ME

Detail-oriented Data Analyst Aspirant with hands-on experience in Excel, Google Sheets, SQL, Python, and Power BI. Skilled in collecting, cleaning, and analyzing data, building dashboards and reports, and translating trends into actionable insights. Comfortable working with large structured datasets, ensuring data accuracy, documentation, and integrity, and supporting ongoing analytics projects in a collaborative, remote environment.

SKILLS

Technical

- Programming : python, Sql, MongoDB, c++.
- Data skills : Data cleaning, Data analysis, trend analysis, KPI tracking
- ML Skills: Classification Models, Model Evaluation, Scikit-learn
- Tools: Git&Github, Jupyter notebook/ VS code, Excel (advanced)
- Data operations : Data validation , Documentation , accuracy checks .

Core Competencies

- Analytical & Problem - Solving Skills
- Communication
- Team Collaboration
- Adaptability
- Organizational Skills
- Creativity
- Leadership

PROJECTS

Sales and customer Performance Dashboard | PowerBI

- Collected, cleaned, and transformed sales and customer data from multiple sources
- Built interactive dashboards with KPIs such as total sales, average order value, and customer retention
- Analyzed trends to identify top-performing products and regional insights
- Ensured data accuracy and consistency using Power Query
- Supported data-driven business decisions through clear visual reporting

Smart Internship Analyser - Machine learning

- Analyzed student profiles and internship data to extract meaningful insights
- Applied feature extraction and classification to improve matching accuracy
- Visualized trends to support decision-making for students and coordinators
- Implemented using Python, data cleaning, and predictive modeling

Leadership & Activities

Secretary - IET Student Chapter

- Coordinated technical events & workshops
- Managed communication between student members
- Supported engineering-focused initiatives & documentation

Organized a 24-hour innovation-focused hackathon at SRM Trichy, driving collaborative problem-solving and real-time execution under high-pressure conditions.

Certifications

- Extract , Transform ,and Load Data in PowerBil (Microsoft) - 2025
- Google data analytics - coursera(2025)
- Data analysis with Python - IBM (coursera 2025)

Education

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY, TRICHY.
B.Tech CSE
CGPA : 8.7
